

1

Plan your response in the event of a fire and practice it. Be sure to involve your roommates!

2

Do not obstruct or disable smoke alarms or any other fire protection devices. Do not play jokes with fire alarms. False alarms get people hurt.

3

Never neglect a fire alarm signal as a false alarm. Respond to every alarm as an actual fire event.

4

Alcohol use has been strongly associated with fire fatalities. Take personal responsibility for your safety.

5

Check to make sure your student housing has adequate working smoke alarms and unobstructed fire escapes.
